*Disclaimer: The information contained within this document is intended as a general guideline only. The customer is solely responsible for proper selection of the fixture under the given site conditions and intended usage. The mounting of any item to a pole, in addition to the luminaire, will dramatically impact the EPA load on the pole. It is strongly recommended that a qualified professional be consulted to analyze the loads given the user's specific needs to ensure proper installation. Failure to ensure proper site analysis, pole selection, loads and installation can result in pole failure, leading to serious injury or property damage. Colors and images are for display purposes only. Your sign will be delivered based on your configuration.

PRODUCT SPECIFICTIONS

Type: Solar LED Flashing School Crossing Sign

Solar charging panel: 12V, 5w Monocrystalline silicone

Working mode options:

- 24 hours per day
- Timer activation

Battery: Lithium battery 7.4V/4400AH

Visible distance: >2500 feet

Working time: After one full charge, 5-7 consecutive days

Battery life span: 3-5 Years

Color: Yellow (standard) or neon yellow

Dimensions: 24" x 24" pentagon

3M Engineer Grade Prismatic Reflective Sheeting
